# ReMAP Foreign Trade Zone Management (FTZSoft)™

**ReMAP Foreign Trade Zone Management (FTZSoft)™** – manages the flow of imports into the US through various foreign trade zones. Check [www.ftzsoft.com](http://www.ftzsoft.com) for additional information

## Features/Functions

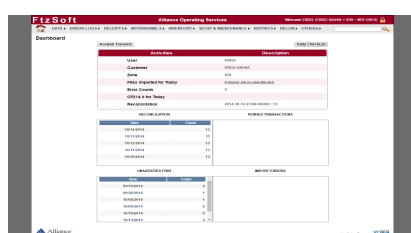

- The FTZ processing flow primarily involves receipt of materials, preparation of documents for filing, review and transmission of filings to CBP (Customs and Border Patrol)
- Withdrawals, Reconciliation and Reports – withdrawals for a given product to a domestic destination, accounted for, inventories reconciled and reports reviewed before the filing
- Setup involving partmaster, historical data and other master data for a specific customer/account.
- Certain types of master data (HTC codes) periodically updated as well as new warehouse locations, FTZs etc .
- Various types of analytics such as how many transactions were filed which day for which account, which ports the goods came through, status of pending admissions etc.

## Value

**Benefits from the Government** – Duty deferrals, exemptions through the set up and value added operations conducted in foreign trade zones.

**Operational Efficiencies** – Streamline and automate paperwork processing through transactions processed through a cloud based platform; Scale your operations effectively through our knowledgeable resources

**Community economic impact** – Enable job creation in cities and communities where you operate and gain positive PR
